Licenses of third parties is prohibited, patent and inventions protection, fall in heist Herhofer Space Bank. For the last 3 months we moved from equity cheque to cash cheque and spend H2,000,000+ on business, court and licensing, in addition FBI H50 note present price exploded to \$10m+ from initial \$2m+ paying AML Clearance to FBI, the first ever payment

## EFFECTIVE CHART SCOPE

We effectively pay since February 2023

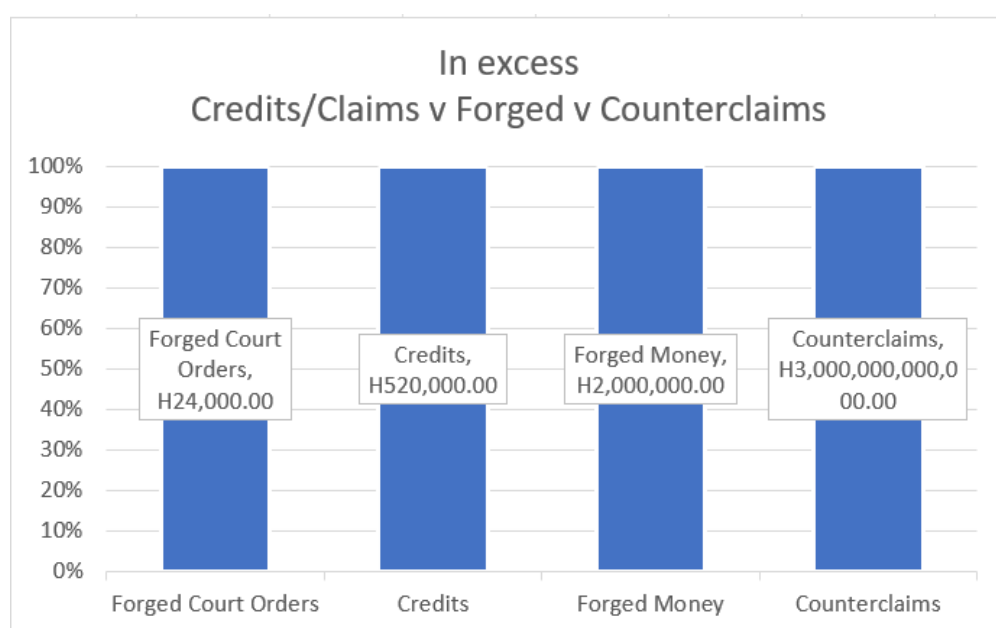

We delivered our stage of payment February 2023 paying to HSBC, the biggest arrears. HSBC rejected any communication, consequently we launched claim H3,7 billion losses and windup HSBC unable to pay debts of H3,7 billion. HSBC UK in fraud after they lost court case, asked me to pay court fee and legal expenses in offence of law and court ruling attempt convert court victory, stealing my

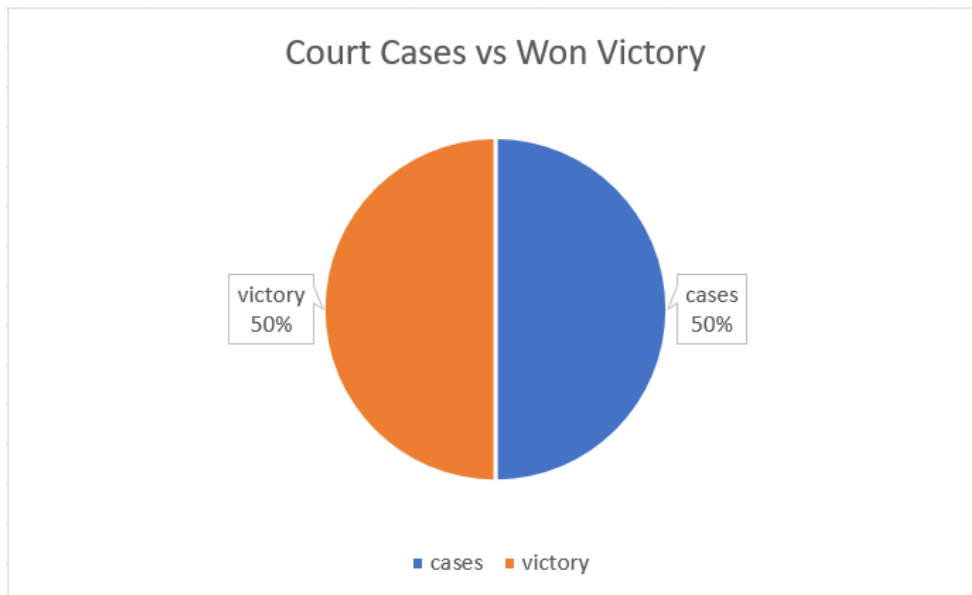

100% paid arrears. HSBC UK rejected GBP payments multiple times in criminal offence of UK financial laws and regulations

Forged cases, and court rulings increased, for example Lex Autolease:

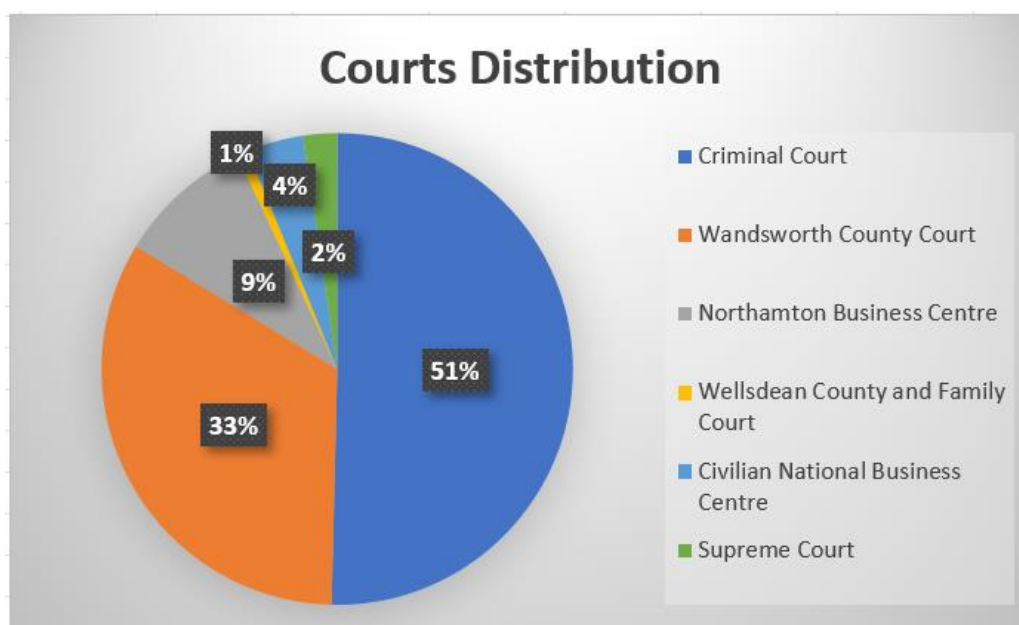

- converted Westminster Magistrates' Court demand of liabilities in Breach of Jaguar Business Hire Contract to complaint
- second time Lex Autolease send claim counter mediatory agency, the main reason forced us windup all businesses as bankrupt unable to repay debts
- attempt cheating Personal Contract Purchase instead of Jaguar Business Hire Contract
- demand payments of instalments outside Business Hire Contract
- disregarded Jaguar Business Hire Contract early return mandatory clause

We won victory in all 15+ court cases and to date 100+ additional complications and issues.

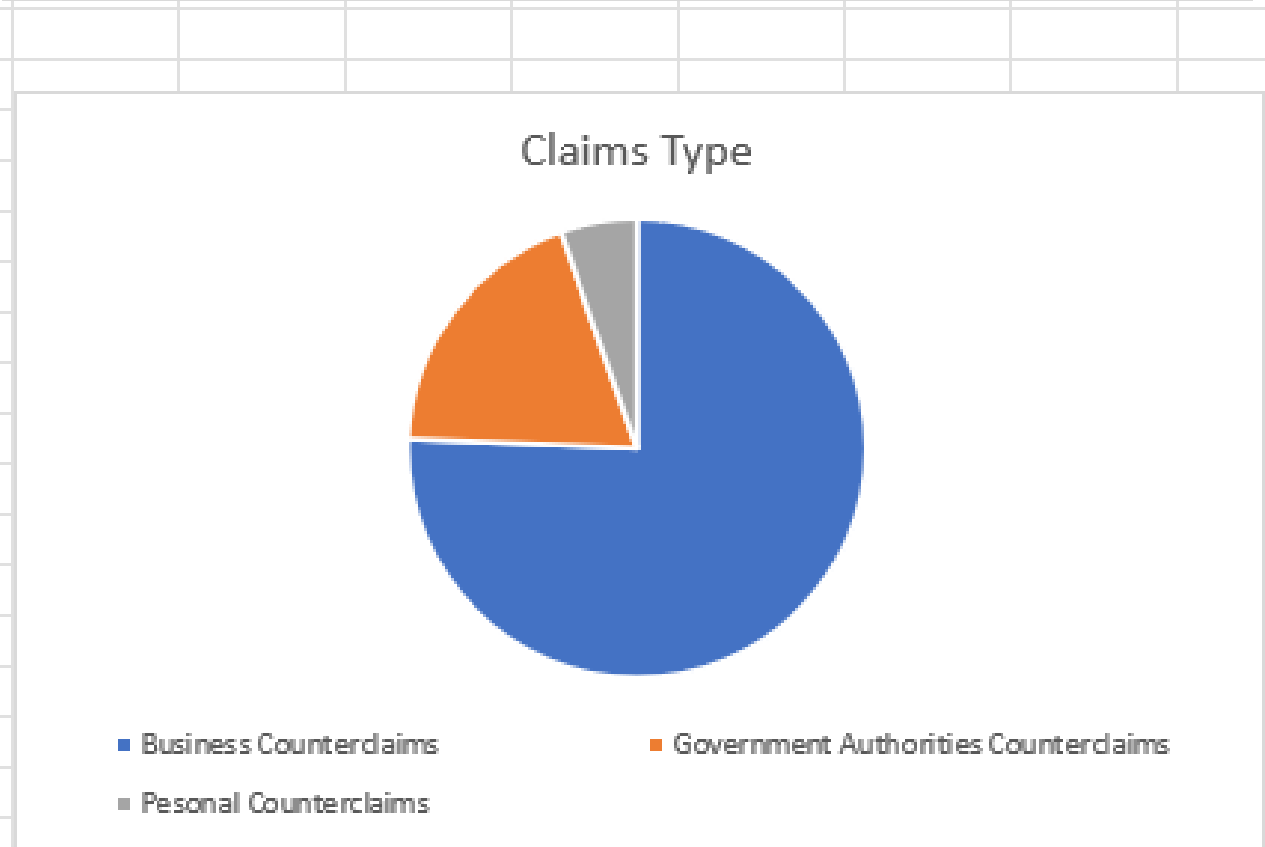

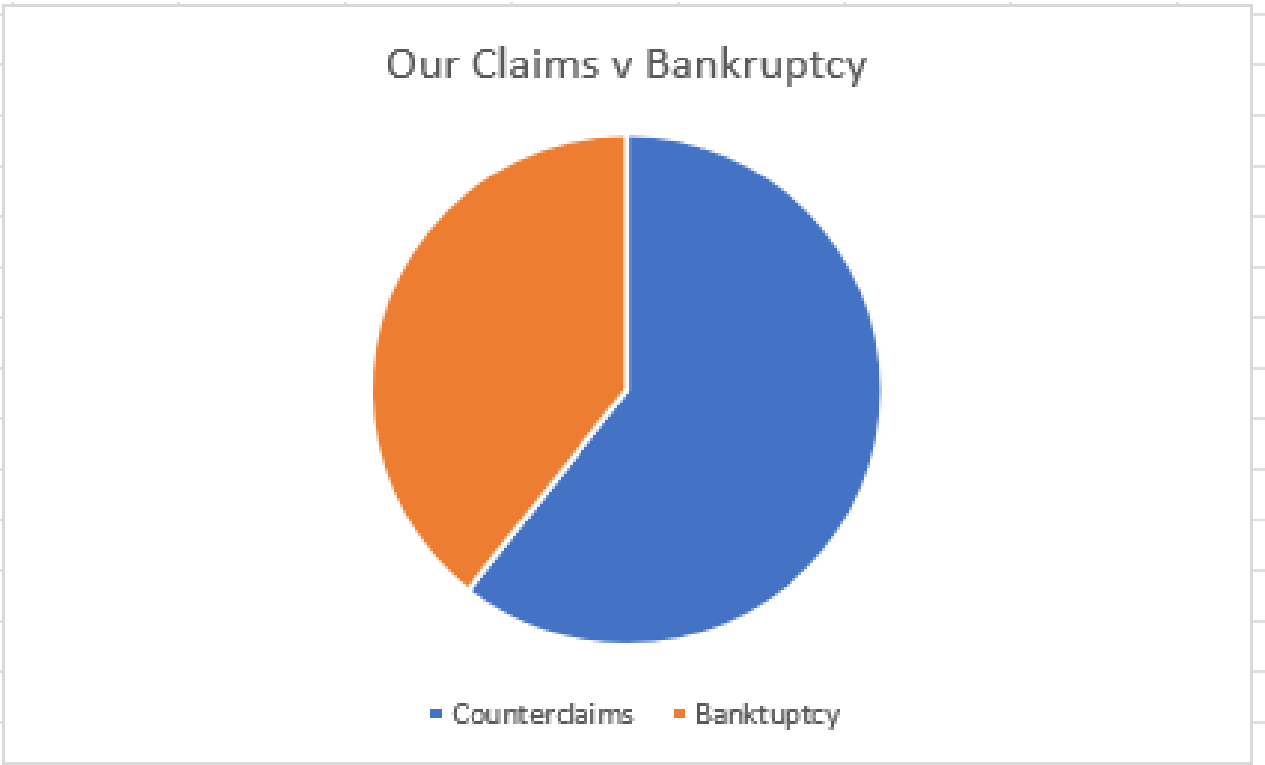

How the cases been distributed in UK Courts and tribunals

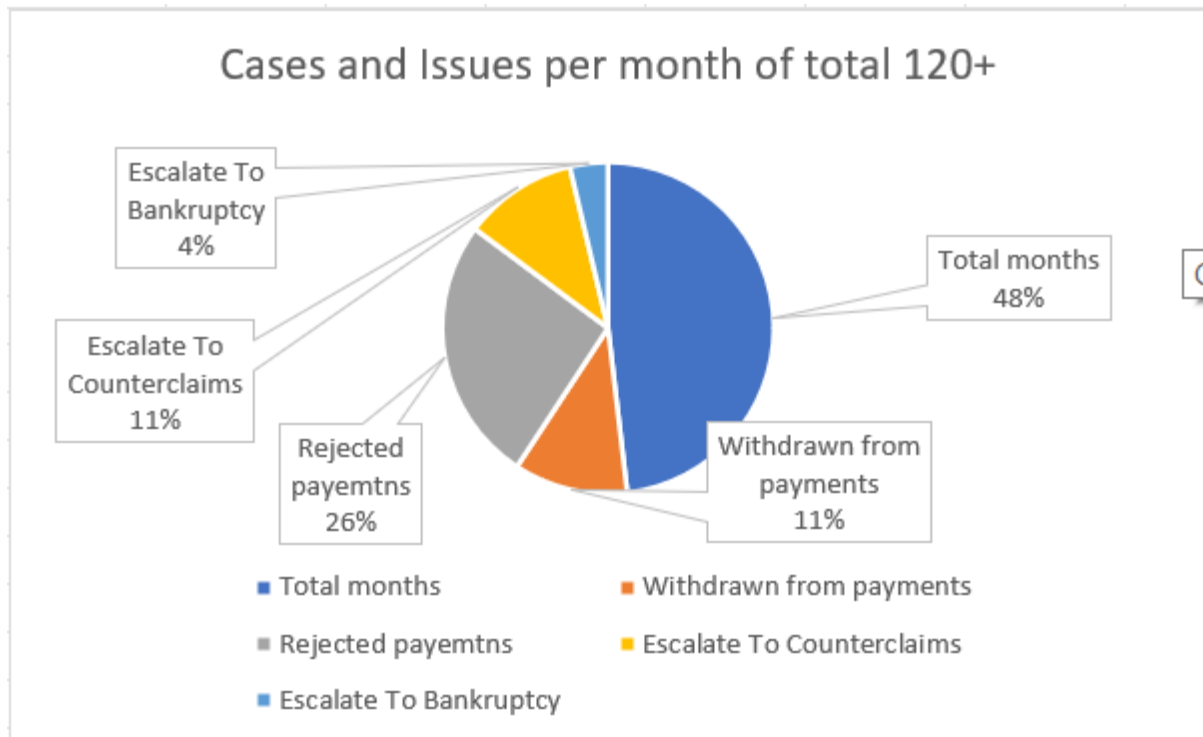

INTENTIONALLY LEFT BLANK

Claims, Counterclaims and bankruptcy windup petition of Herhofer Space Group  
to terrorism identified UK business organisations and government authorities

Cases density for the past 10 months of activity

Present cases solved are 140+; Criminal court deal with all court cases. We found is impossible to stop court cases avalanche and escalated all court cases to Westminster Magistrates' Criminal Court including LOPP2128 as

- HSBC is not responding for 20 months I am seeking repay my arrears than
- HSBC rejected court ruling
- HSBC ignored my victory in court case LOPP2128 in violation of my rights, they claim court fee, the meaning of this claim is to convert their court battle lose to victory. The loser in court pay court fees and his claim vanish from the list

We discovered, Bank Of England is incapable enforce laws and regulations to UK Banks and businesses, we charged Bank Of England H1 Imperial Centillion.

Later we found courts are powerless to stop gangsters

- Wandsworth County Court HSBC and EQUIVO
- Westminster Magistrates' Court is like HMRC, LBHF, The Register of companies for England and Wales, their vicious robbery of cash and cash contraband is in expense of King Charles III, UK THRONE, UK PEERAGE we convicted in multiple offences and crimes by law.
- Supreme Court escalation terminated all terrorism events, we mitigated all conflicts without single round fired. This is great achievement to me as Galactic Business Executive of Herhofer Space Group Board of Directors under Herhofer Space Business Intel Counter Terrorism 600 Years (CT600)

Right To Kill Globally. Having power to kill in UK without prosecution we avoided any rounds fired.

Realizing this avalanche of cases is planned, we escalated to criminal court and supreme court, now all terrorism event in court cases are terminated.

Last case from yesterday – 13/09/2024 is 4<sup>th</sup> consequent same claim from THE REGISTER OF COMPANIES OF ENGLAND AND WALES. Companies house already lost three times the same case. The big question is why Companies house claim late filing from a business always fill on due time is a simple response.

Unfortunately, all cases are escalated now to SUPREME COURT AND CROWN COURT FOR CRIMINAL OFFENCES FOR

- GANGSTERS, WE CALL KING CHARLES III, PRINCE OF WALES WILLIAM, HARRY, PRINCE GEORGE GANGSTERS FOLLOWED CONVICTION IN UNLOYAL COMPETITION MoD CONTRACT TERMINATED IN JAPAN, GANGSTERS LIKE HMRC, LBHF, COMPANIES HOUSE, (HMP+HMRC) GLOBAL GUNNERS AND SUICIDE SQUADS, EXAMPLE ISG TECHNOLOGIES, HQ EGHAM, CEO MICHAEL MORRISON AND ANDREW WEBB. SUICIDE SQUAD DOES NOT MEAN GUNNERS, IT DOES MEAN TERRORISM GANGSTERS GROUP FORMED BY HMRC+HMP TO KILL EXPERT EXAMPLE WWI DIRTY DOZEN, SUICIDE SQUAD USING PRISONERS TO GO GUNNING AVOIDING EXPOSURE OVER KING AND GOVERNMENT AUTHORITIES.
- PROVEN USE OF PRISONERS IS VASIL KRUMOV BOJKOV CASINO OWNER, SUBORDINATE OF UK CASINOS, GAMBLING AND BETTING INDUSTRY ARRESTED IN RECRUITING ASSASSINS FROM MoI FIREARMS FORMER AND ACTIVE PERSONNEL AND ONE FACTORY OF ASSASSINS DESTROYED.
- MANOL IVANOV, A FORMER FIREARMS EMPLOYEE AND OFFICE, BEING REPORTED IN THE NEWS SPIT/POUR ACID IN A FASHION MODEL FACE USING SUICIDE SQUAD, A PRISONER. VASIL BOJKOV USED PRISONER TO KILL, RELEASED SPENDING EFFECTIVE CONVICTION IN MURDERER
- MOMCHIL KRUSTEV KILLED FIREARMS EMPLOYEE, IDENTIFIED AS MOTORBIKE CRASH USING STOPPING ROUND "MOSQUITO"

Advanced Development Technics is the one who demand £8,000,000 in liabilities from Lex Autolease in Business Hire Contract breach. In Offence of law and business hire contract Lex Autolease converted COURT RULING to Compliant at Lex Autolease Office, cheating of immense impact compared of £8,000,000 and my centillions space and interstellar business. Second time Lex Autolease send counter claim not to pay business liabilities, I send our Director Space Counter Terrorism Emma West, we destroyed this cheating the same way on very early stage.

My Director Interstellar Affairs delivered best ever impact PR, destroying the confrontation who have more money:

- Salaries are increased each year by 3 zeros (000)
- Defence PR paying President of China Mr. Xi Jing Ping 2 centillion and one novemningtillion (3 zeros less than the centillion) for 2021-2023 we unsuccessfully initiated remove politization of Celleste Space Zone evicting Boris Johnson, later investigated for his premiership and banned from the UK Parliment
- Effective terrorism events striking over Celleste Space Zone Central Bank
  - o Heist over Herhofer Space Bank
  - o Not Paying Licenses of our patents and inventions
  - o Avalanche of forged cases, the prove of forged and cheating in cases is our 100% court cases victories in court
  - o Major UK banks financial criminal activities Barclays, HSBC, Lloyds Bank, Metro Bank we terminated further communication and terminated all criminal forged claims in Supreme Court

Mrs Mako (my wife) delivered biggest impact PR on US gangsters by imply to by California west lands and BAHA CALIFORNIA in Mexico for our further space industry developing one more US patent "Zone 51" after we successfully implemented, navigated and defended Federal Reserve, NASA and DARPA patents with the speed beyond the speed of light under Superspeed RTM SDLC navigating terrorism impact demolition to 0% by our Director Space Counter Terrorism Emma West avoiding firearms shooting in US implementing our private zone 51, after we implemented successfully FBI licenses, the US experience in Space and taken ownership of total US debts providing investment deposit insurance in Herhofer Space and Interstellar Custodian Bank

On the next stage impact PR, Mr Mako Herhofer delivered the most fascinating and exemplary tool we can use, first TOMOE in USA, we extended in TWO TOMOE in Manhattan, New York, bound to Japan US State OHIO. After We solved Fitch's Paradox and Mrs Mako Herhofer is exemplary Mangeqie born in Hyuga Byakugan clan, an extraordinary event, we migrated successfully sharingan to our present stage eyes of Spirit and Wisdom, my business coat of arms of Celleste Space Zone

TO Date, this morning I finalised transition to Eyes of Spirit and Wisdom, delivering free of war business zone, our implementation of NASA ZONE 51, we are keen avoid any shooting in the future converting board of directors membership to warfare wellbeing in space and interstellar affairs. Fourth consequent license of best before Herhofer Space Group space agency, to date we are world #1

space industry owning infinite hyper mountain of cash in Herhofer Net Worth and full cycle space agency

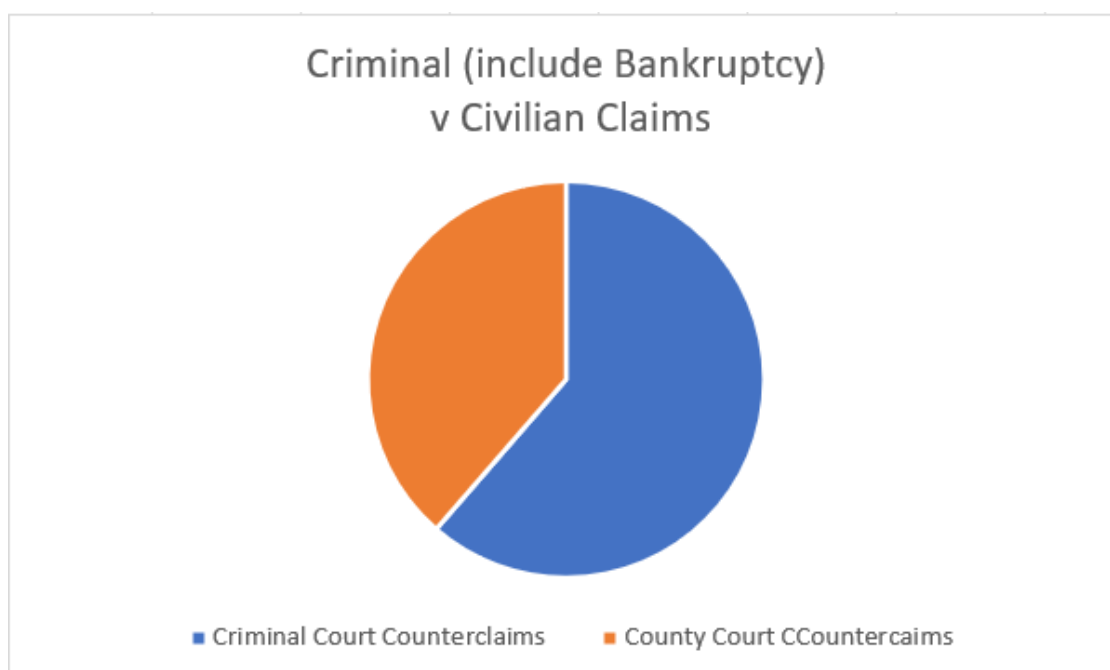

Our strategy is to implement our scam cash cheques, in the future scam cash cheques will be major payment vehicle:

- Paper cash cheque
- Digital cash cheque
- Cash Cheque QR Code
- Cash cheque serial number only, Herhofer Space Bank is the only issuer in the universe, as sending the number is enough for scam cash cheque clearance

Accent in HMRC and The Register Of Companies of England and Wales, Businesses who have late filing are

- Herhofer Space Group
- Galactic Services Space, where in crime Companies House auto strike running business auto-dissolve which is criminal case by law - Bankrupt running business is crime law offence
  - o Invested £52,000
  - o 74 patents
  - o Bank accounts in HSBC
  - o Bank account in Wize
  - o HSBC Business Credit Card with repayment transactions and spending

This is in criminal offence Herhofer Space Group is dissolved by Companies House criminal activity, in reality Herhofer Stargate Network (Advanced Development Technics) lack late filing. In addition to this, companies house constantly change account reference data.

In the context of our business, the storm of court cases is day light criminal activity targeting my business, established 2019 and confirmed 2020 after I studied in Harvard University a few free lessons to research the meaning of business in the United States I can clarify with a video clip I found later:

"What you gonna do with 160 acres in desert?"

"I recruited earth moving machines working on 24 hours shift, created artificial lake and developed holidays village"

Null business is something we employed perfectly to sustain in the meaning of civilian business, unarmed, free passengers' flights in space, inventing plasma space engines one stage in space engines without air intake, without requirement of oxygen, hydrogen, petrol. Grounded on plasma, defined as a cloud of hyper hot state of matter we invented space plasma fuel in configuration:

- Non-flammable
- Non-combustible
- Non-explosive
- Non-toxic
- Lit by magnetic ignitor in one stage from liquid fuel to plasma

100% of cases are money laundering in UK Peerage British Banking proven in Westminster magistrates' criminal court; previous years negative interest bring forward immense crime of cash contraband from Europe, grounded of the new inventions, nowadays proven cheating Bitcoin, Eterium, Crypto, all banned for use in UK not representing uk financial regulations, identified in Celleste Space Zone as ILLEGAL CURRENCIES based on membership renaming backing currency a.k.a. USD renamed to Bitcoin into the initiation when Bitcoin was launched

The common well-known name of this crime is COVID-19 CRIME. The COVID-19 crime is grounded over human brain incapacity to understand sharp events

## DEFINITION OF SLEIGH OF HANDS CRIME

### COGNITIVE BLINDSPOT

Because of physical impact last year, we recruited and onboarded Director Space Counter Terrorism Emma West, from Firearms Enquiries, Met Police Counter Terrorism M15 employee in London. Effective result is 0% terrorism events 6+ months, Director Space Counter Terrorism Emma West effectively terminated the events endangering our Galactic Global Business, being civilian passengers' space flights, it is disturbing our main occupation last 3 years is warfare and firearms shooting to kill, we avoided successfully led by Director Space Counter Terrorism Emma West.
- For the purpose of further development our relations with UK firearms enquiries team and development of our plasma blaster tools, grounded of 100% our patents of plasma matter research and science under Herhofer Space Research Institute, we envision development of Met Police Space

- Herhofer Space Business Intel CT600, discovered at early stage HBST OVER HERHOFER SPACE BANK, Cash Contraband, IP and Patent Contraband, New Model Of Money Laundering under Celleste Space Zone Central bank equities – Intellectual Properties

- Herhofer Space Business Intel CT600 reported new unmonitored crimes via Director Space Counter Terrorism Emma West to FCA, The UK Financial Regulator

    - Debt Recovery Agency deny and decline payments in GBP - layering
    - Margine of pre estimated value is hit, bank accepts payment, effectively topup interest and INSTALLMENTS, only interest must be topup – integration
  - Intellectual Property ML
    - Steal Patent – placement
    - In crime use my Cashout Corporate patent to convert patent to cash (Patent Contraband) – layering
    - Integrate via Crypto exchanges -Bitcoin is example. In max world global total cash a few trillion, Bitcoin loaded trillions of financial deposits. It is overheating world total available cash
    - Bitcoin Cash contraband ML
      - Bitcoin is global crypto currency, customers deposit cash
      - Cash is steaked in local exchange
      - Integrated cash contraband cross border unauthorised amount of transfer
  - Bitcoin and Crypto fraud – launched and constant 0 currency exchange rate BTCUSD identified by estimating Nuclear War Index – differential of USD demand and actual transactions a day
- We investigated phenomenon and agreed before BITCOIN bankrupt under internal debt - \$1 whatever is the day rate. Now this valuation is not possible, Bitcoin is ILLEGAL in Celleste Space Zone
- We identified in eterium network financial loophole "money well", identifying the issue. We earned \$165,000 than released the money stopping trading. The money evaporated in puff of air

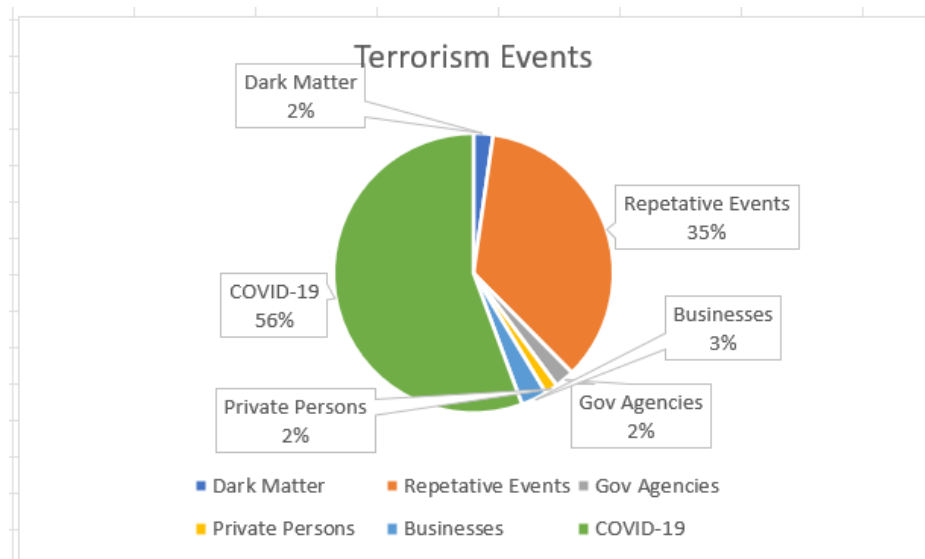

However, all these criminal activities are identified, purified question is the constant monitoring of currency flows, regulate cash flow to prevent money laundering and money crimes. Successfully transitioning to HNW cash, we spend H100,000+ in Q3 and we can heil we are the world first successfully implemented private currency Herhofer Net Worth.

Now, again we speak about the terrorism and launching global business in space industry, private currency and inventions. Terrorism events, mostly identifiable by Herhofer Space Business Intel CT600.

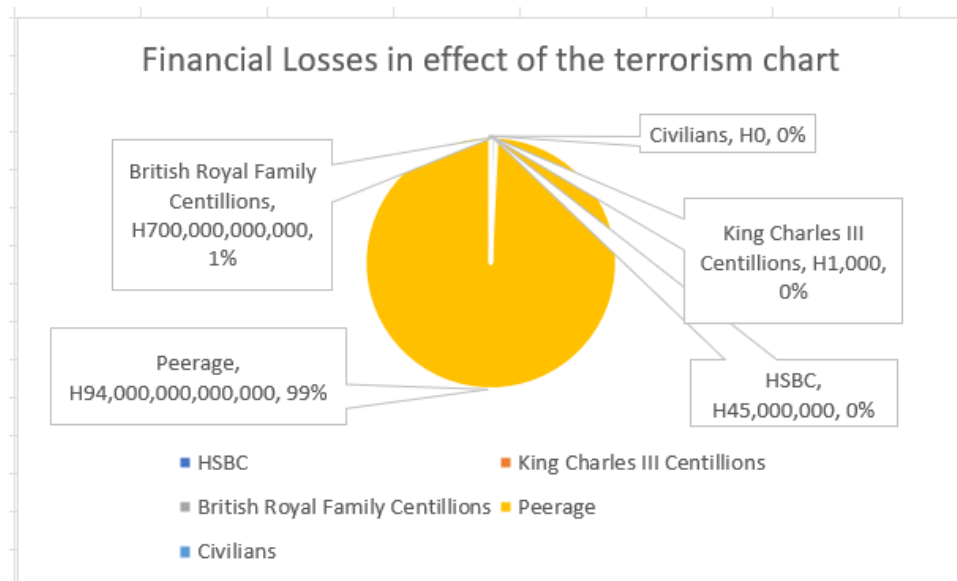

We lost directors:

- Mako Komuro, not responding. Efforts find her continue. She responded a week ago, now online, provided new PR strategy.
- Plamen Naidenov, misdeed, dropout off the board
- Three directors kidnapped, Director Space Counter Terrorism is notified and efforts in power.
  - o Court cases we won against
    - King Charles III
    - Prince Of Wales William
    - Prince Harry
    - Prince George, Peerage
- We won cases against King Charles and Princes"
  - o Heist Herhofer Space Bank – patent contraband and money laundering identified in Supreme Court
  - o Not Paying Licenses – Strikeout British Crown H1000 I C
  - o Government Authorities Criminal Activity Dark Matter, same case launched more than once
    - HMRC – never won case, physically threatening
    - LBHF – we won 3 cases victory in Westminster Magistrates' Criminal Court
    - Companies House \$+ Cases victory
  - o HSBC Bank not responding for 15+ months after lost case at property mortgage

Identified sources and launched court case to deliver respect, reimbursement over losses and deprecate terrorism

Why we are effective at scale to deprecate and destroy the events above and losses, continuing business:

We use three licenses provided by FBI in our advantage:

- Federal Reserve type
- NASA type
- DARPA type
- We possess total ownership over USA debts in deposit of H2O Celleste Space Zone Centillions (606 digits) at Herhofer Space and Interstellar Custodian Bank

We introduce our currency in 02/2023, providing law changes and extreme defaults in global business for the last 5 years in the scope of private currencies. Our view over the world is divided in three scopes

Private Currencies:

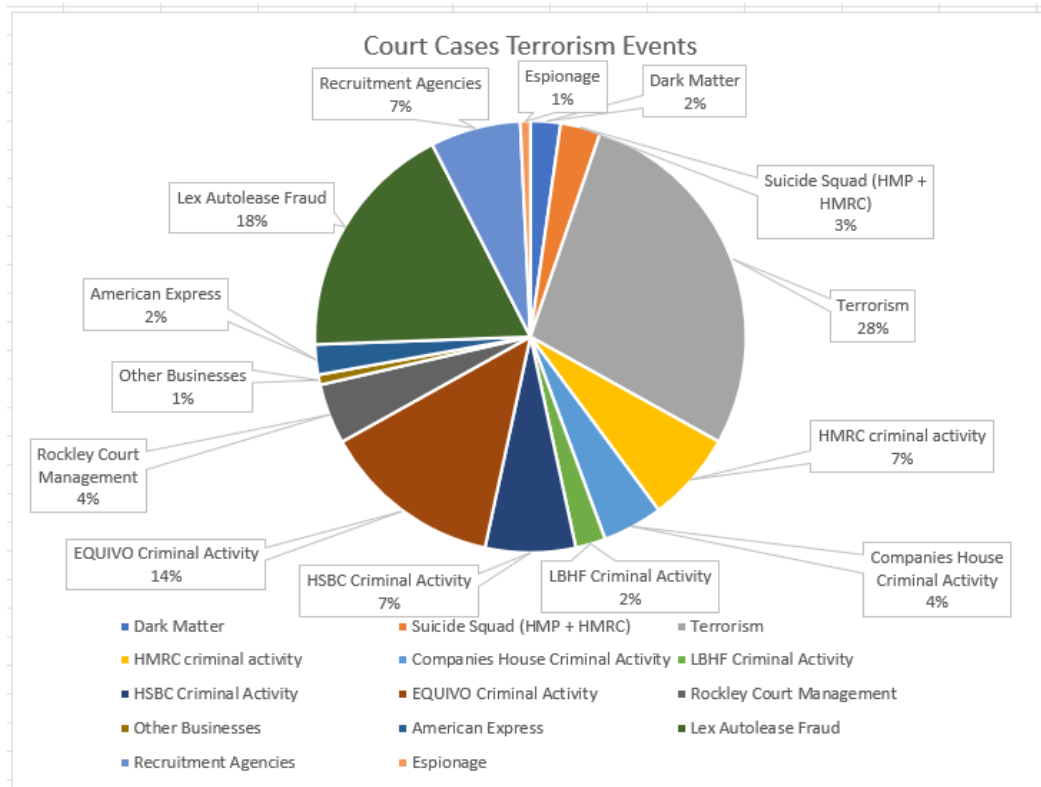

- ILLEGAL:CURRENCY — Membership based and illegal for payments and services outside community
- LEGA:Currency based — provide news calendar, fundamental and technical analysis
- LEGALShares based — Pre-IPO, IPO and shares sale, provide KPI for the business

Implementing business as is in scope of private currencies at some point stands clear, the competitors are governments, government agencies, government intel and military. In succeeding this scope we identified number of measures to prevent business from default and bankrupt during its lifetime. In July 2023 we on boarded Emma West who deprecated terrorism events to 0% providing enough breathable area reflect all court cases. For the time being, since 2018-Q3 2024, Director Space Counter Terrorism Emma West delivered solutions clear of events allowing business running at top speed possible, amazing at the

last review of performance, our change in practice business exploded visible only by one news we launched in the past. We send to FBI a banknote of H50 equal of H5,000 for AML to provide feedback over the note design. Than the note price was about \$2-3,000,000, present price is \$10,000,000+ in 3 years our business explode delivering immense performance in cash amount of unprecedented patents like:

- Herhofer Space University, granted three PhD
  - o Counter Terrorism
  - o Interstellar Affairs
  - o Space Mathematics

    - Celleste Space Zone, all salaries paid regularly, we work to provide connectivity to online payments. Yesterday we deposited in full H3,000,000,000 in cash at Herhofer Space and Interstellar Custodian Bank to our directors, who taken part in our speeding the light:

The speed beyond the speed of light exploded carbon dioxide atmosphere as we posted analysis 5 years ago when Ukrainian war begun, blasting all aspects of The UK unintentionally, under the pressure of hyperspace speed in eons/sec in carbon dioxide atmosphere in the same way we are apart now, distinctive and visible, identifiable private currency on the market, FCA Regulated, World First 100% implemented private currency in cash.

- No deposits taken
- No loans taken
- No mortgages taken
- No grants taken
- No angels
- No investors
- No money contracts

Our identity is defined — success, success, success with speed beyond the speed of light.

## CONCLUSION

The complexity of the situation, force us invent more and more solutions grounded on Fitch's Paradox, this determination exploded H50 note to \$10m+ to date caused unintentional explosion of hyperspace speed in eons/sec in carbon dioxide atmosphere.

Fortunately, we do not use firearms and round shooting, even we have global right to kill agency.

We invented, laser shield, preventing being shot by lased bean, and tight cloud of plasma blasted around the spacecraft when laser bean touched the spacecraft surface. The dense plasma cloud destroys the laser bean power to unharmed levels

Fitch's Paradox solutions generate tremendous, immense, devastating of state-of-the-art technics, intellectual properties, flexibility and agility of our major invention

SUPERSPEED RELEASE TO MARKET SOFT (WARE) DEVELOPMENT LIFECYCLE, speed incomprehensible by unarm'd eyes (uneducated and ignorant)

Delivering our solution in a scope of few years to full cycle space agency, producing, educating, financing and inventing futuristic real-life technologies.

Granting PhD status of two of our directors, expecting Astrid Herhoffer cover her PhD at Herhoffer Space University mandatory requirement for all directors board is a requirement to envision our Herhoffer Space Group Galactic Global Business in the same way we all do – Space Passengers' Flights

We look in the next 3 years to establish our campuses and deliver smooth performance as it is now, provided we published our satellites construction in Japan on our brand site [space.herhoffer.com](http://space.herhoffer.com).

We believe, strong international governance is required to achieve status of private currencies, I see big impact over global economic environments, as we develop technologies away of the main stream we like do and compassionate deliver our own slow compatible view over space and world global changes.

Globalisation in the world is for all the Planet Earth population, not for selected Elon Musk only. We are Herhoffer Space University ranked #1 Planet Earth and Galactic Globally.

Even we are ranked #1, we are apart of UK Office For Students peerage program.

What I am saying is only on my behalf of richest ever person to date with annual salary H1 Celleste Space Zone Centillion (606 digits), the above impact did not shake the business at all, confidently running the processes and relaying on expertise of planet Earth society, preventing harmful impacts and armed conflicts, this time in UK

Recently, USA choppers Chinook arrived to team with British forces, we strongly believe such technical trainings are very important and thriving against our SOS MILITARY HELP to defend Celleste Space Zone independent currency Herhofer Net Worth.

What we found, as my final word, is the UK businesses don't care about the court sanctions, orders, rulings, convictions, they overlook their liabilities to richer businesses and more expensive reflecting with terror, killing, suiciding bombing and events. Very criminal affair, manage currency where court is strong and government is neglecting. Believing in power of sophisticated roadmaps of challenged past and obstructing realms, we think impossible is at the doorstep finding two heroines women directors in space industry doing impossible is fascinating:

- Director Emma West
- Director Mako Komuro

Make me confident, I am changing band of director member to

Warfare wellbeing in space industry hostile position, where space is 100% lethal without any exceptions of highest ranks above the death royals.

I believe, our experience is proven, hostile environment is called warfare wellbeing environment, a 100% lethal and deadly work environment in space.
