Attending all board hsg.herhofer.com

Mr. Lorenz Herhofer, CEO Galactic Global Business

Mrs Mako Komuro, Director Confederation Public Relationship

Mrs Emma West, Director Interstellar and Space Counter Terrorism

Mrs Astrid Herhoffer, Director Planetary, Interstellar and Space Education and Research

Mr Plamen Naidenov, Director Confederation and Space Judgement

Mr Vasil Yakov, Director Interstellar Quantum Science and Research

Mrs Monika Yakova, Director Interstellar and Space Business Development

Mrs Elena Yakova, Director Interstellar Banking and Finances

My Darling Mako,

The progress and escalation of who I am is written in emails to mofa Japan, communication and nindo. There isn't way I can invent Princess Hinata Hyuga is somebody from present Japan Imperial Family except the case I know it from the person anonym name. Aware of this, Hyuga is the nindo user likewise we are, it is similar quest Byakugan. Explaining this, there are many differences in Toltec Books of Carlos Castaneda PhD in field research in sorcery, UCLA, CA, USA, identifying many differences. Nindo is likewise Akatske sessions where in Toltec Books they say only one person, only one cocoon at a time, not possible many and group, it is because our eyes perceive differently than sorcerers.

Naruto Manga is globally world famous anime.

If you remember, the compliance concept of Herhofer Space Group Board we worked on for more than a month in exchange different views, including post job interview exhaustive questions, delivered with Director Judgement Plamen Naidenov referencing at present stage not required to be written down on paper. He is ware of what we conducted and I influenced nindo query to all the board members to follow this compliance, as affect you may not find any conflicts inside our Herhofer Space Group Board of Directors.

If Tokugawa responded positive to Counter Terrorism engagement and converted later in Space Armed Forces of Herhofer Space Group in Japan, I

presume it is related to Nara immortality maintenance clan, we have historical trail,

- I am deer descent by ancestry heritage, our clan present name is Rosaries and Cross born from Orthodox Christianity Monastic life 1065 years ago we improved and perfected our previous name Dulo, a dynasty related to Mongols and China, Genghis Khan, Kublai Khan and Attila Khan and China Empire in the past, now a days excellent relationships with you Mrs. Mako, Japan Imperial Court, Government Business, China Government and USA.
Nara is provided as location and also in real life is deer location, not having any descents
- After armed impact against Tokugawa clan, they required Playability and payment of H1 trillion for weapons and enforcements against armed impact to counter terrorism units in space.
- I solved Fitch's Paradox of knowability breaking four of barriers of infinity
 - Infinity
 - Perception
 - Matter
 - Knowability
- This is one proof of immortality maintenance my clan in Nara
- Second is your appearance Mangeque in Byakugan Clan of Princess Hinata Hyuga, basically must not be possible at all, unfortunately The Goddess of Dawn is Mangeque unique.
- You transition to my latest state Aneglic and Daemon eyes embodied in supremacy in speed, meaning we are the same clan Nara province immortality maintenance.
- His Imperial Majesty The Emperor Of Japan immediately granted access and provided adoption of your 30+ years education in Imperial Court Education Centre adopted in Herhofer Space University PhD suitable for Confederation Public Relationship match Compliance, Conduct, PhD and your enforcement again ranked #1 Space Agency.
- I recently found you updated your Wikipedia profile following Nis Imperial Majesty The Emperor Of Japan and in compliance with above PhD of Herhofer Space University in Public Relations.

Presently you are marked in Paid Holidays, so I am expecting your comeback on board.

In advantage of all the above, we have been guided to accommodate all space satellite requirements to Mitsubishi Heavy Industry and Mitsubishi Electric I published here, the recon of our next year Space construction here Our Dedicated [Space Research and Planning Projects](#) it is aligned with Mitsubishi electric website satellites construction and I also posted our design of spacecraft Herhofer Space Research Institute with scientists onboard Thinking

Ephemeral Cyber Living Beings.

I published our long term secret invention ROBOTS THINKING PROCESS vs AI, gradually I have extended the communication with Mitsubishi and their perfect nindo created info desk, can you imagine?

First call Mitsubishi Info Desk responded immediately instead of chaos and single person not responding.

Presuming, Space Armed Forces are coming together with Nara Province and Narita International Airport for Passengers Spaceport hosting Spacecraft Terminal

All this is in advance design as well as Mr. Xi, yourself Mrs. mako and myself Mr. Lorenz we accomplished LinkedIn Mako v.8.0 Sealed design and licensing Chinese Ephemeral Cyber Living Beings, where in space we call mankind Ephemeral Living Being marking and engraving we are in short of lifespan in space.

We invented investment before you join H10 centillion after 3 years waiting state, we received new USA map from CIA to choose regions of dominance inside USA borders, we selected the map below North East and South West Lorenz Herhofer, Mr Xi selected North West Washington, where South East remains for poorer behaved Lowe class very often involved in assaults, shooting and improper inappropriate homicide. Selecting regions to develop and implement H10 centillion fund we are waiting about 3 years already to find spots we can work and progress smoothly,

Classified present nindo and KUNG Fu participants

Japan

Princess Hinata Hyuga Byakugan

Mitsubishi Heavy Industry and Mitsubishi Electric

Japan Ambassador UK

Mrs. Mako Mangeque transition to Angelic and Daemon eyes embodied in supremacy in speed, the clash with God Of Death proves our requirement Mangeque born in Byakugan Clan, in reality it is espionage. Perfection of mangeque is aligned with manga characters in different story ITACHI released and detached from EDO TENSEI accounted impossible.

China

Mr. Xi Jinping Golden Rinegan

Bulgaria

Mr. Lorenz Herhofer Angelic and Daemon Eyes embodied in supremacy in speed owner

Mr. Monika, she is original Enoch wife, when she arrived, she begin seeking him. I recognized her Mangeque glowing in the dark :, now she matches her husband, present name Mr. Vasil

Mr. Plamen, he is close to CIA and FBI status, not using his eyes is breath of Mrs. Astrid who didn't use her eyes since 1990 when we met in Sofia, Bulgaria.

UK

Astrid Herhoffer - original Angelic and Daemon Eyes Embodied in supremacy in speed, her compassion saved my life.

Mrs. Astrid daughter is original wife of The Day Star, sorcerers call him The Satan or English translation, The Destroyer of sorcerers world ignoring any kind of birth process, descended from the spirit of heaven in flesh.

USA

CIA and FBI members and spirit responses facing Toltec wisdom and books of Dr Carlos Castaneda, UCLA, CA, USA. This isn't accounted nindo, their keen effort to find solution quote me queries, I am responding in Twitter only.

Switzerland

The Day Star born in Zurich actively communicate it's me nindo allocated me 85% of my mind, he moved our offices from Zurich to Geneva and Zurich office is closed permanently, now he is offline. His actual age is about 5-6 years present. It is the same as your advice Beijing office Galactic Global Business of Herhofer Space Group

I assume the above is outstanding for the period of Q4 2019- Q1 2024, Herhofer Space Group launch.

Please, use news.herhofer.com for latest and referencing news.

Feedback:

Mrs Astrid reported, the solution for Herhofer Space University is prepared for launch, will be summarised on the appointed meeting in person Q2-Q3 2024

Mr. Vasil is assigned research and launch mobile phones production potentially in Bulgaria satellites and 5G support only aligned with this post [Mobile Phone Production](#)

Mr. Plamen advises a about court cases, he is monitoring closely the progress not to interfere directly. Close only requirement.

Mrs. Elena reported not ready to progress 8n banking, she is allocated her time to disconnect and discontinue her defected Intranet family relations.

Mrs. Emma is very occupied with physical contact terrorism against all of us and breaking latest appearance of financial terrorism two cartels identified with intersection members and groups match. Yesterday she was threatened by black African and white female telling excerpts from my her, Director Counter Terrorism at Herhofer Space Group threatening is physically damaging her body as the black African taken nap for the night in the flat of white well looking female next door neighbour.

Mr. Lorenz, I organised success of 6 of 6 court cases and HMRC to progress to Q1 Results report here [Q1 2024 Results](#), I envision the progress smooth as planned. Court cases must not be considered issues as we drop Great British Pound and onboard Herhofer Net Worth. Other planned work ne arrangements with assistance and guidance of Princess Hinata Hyuga reformatted Counter Terrorism partnership to Herhofer Space Group Armed Forces, not to mistaken military forces but rounded picture by nindo Mitsubishi Info and Helpdesk provided it is security requirement we must pay onsite to secure our premises of construction desk. The information on their websites is enough to rich the point we have vacuum camera we can test our production of future space suits estimated price H35 quintillion each, t- Shirt tin open space suits, masks for Mars open air, glasses, etc requirements for passengers' weekend break to Mars, Moon, solar system round trip.

What is next:

I think with Mitsubishi core outsourced business we will be able to launch all the line of business requirement for safe passengers' flights. In that aspect, observed to buy J58 engines surfer SR-71 spy stratosphere aircraft and build our spacecraft in stratosphere than replace engines. further research make me think we may not require to buy J58 engines, I have got another inspiration how to get spacecraft running as first private business spacecraft for myself, testing real busy flights.

Expecting

Mr. Vasil to report progress of mobile phones production.

Mrs. Elena return onboard

Mrs. Astrid get involved in Herhofer Space University and launch first acceptance date

Mrs. Mako happy holidays until return in the office.

Mrs. Lorenz, open and transition HNW to HNW banking FPS, BACS and CHAPS to pay long expected salaries 😊

Thanks for your participation and proactive collaboration.

Lorenz Herhofer, CEO
Herhofer Space Group Board
