Preface

- Galactic Services Space Ltd is owner of Herhofer Space Research Institute™
- Herhofer Space Research Institute™ is a Global Galactic Business inventions, patents and innovations corporate repository manager
- Herhofer Space Group is a Galactic Services Space Ltd Trading Name
- Global Galactic Business is the collection of inventions and patents applied to passengers and manufacturing planetary, space and interstellar financial services and logistics
- Herhofer Net Worth is Herhofer Stargate Celleste Space Economic Zone and Space Jurisdiction Currency Referencing Services, a composite currency in scopes
 - o FCA Registered Herhofer Net Worth a legal tender in UK in scope of composite Great British Pound
 - o Herhofer Net Worth Celleste legal tender is unregulated use in Celleste and abroad
 - o SCRAM Herhofer Net Worth is planetary, space and interstellar currency
- Herhofer Stargate SCRAM Networks is the financial protocol network of Galactic Services Space
- SCRAM data privacy is Shards Composer Of Rotational Algorithmic Modifier - A Fractal Mathematics data shuttering to protect classified and private data
- Herhofer Stargate Celleste Space Economic Zone and Space Jurisdiction is a dedicated space zone designated to Settlers, Passangers and Holidaymakers in space and stars designed to implement Galactic Services Space Ltd Mars Program, also known as Celleste, Stargate, Stargate Herhofer, Herhofer Stargate, Space Zone, Space Jurisdiction, Space, Space Time Zone, Galactic Time Zone

-
- Herhofer Space Group is a Global Galactic Business Board Of Directors and Research and Development Body of Galactic Services Space Ltd, providing mentions Herhofer Space Group patent it is owned and managed by Herhofer Space Research Institute Corporate patents and inventions repository

SUMMARY

The document is aimed to present Herhofer Space Group Global Galactic Business In the spotlight of Herhofer Net Worth and Herhofer Financial Networks of Planetary, Space and Interstellar Financial Logistics Services and Financial Deeds, the legal tender of Herhofer Stargate Celleste Space Economic Zone and Space Jurisdiction. A Herhofer Space Group Knowability Space Agency, new trend in space industry adding delivery of Space Task Force, Education, Research and passengers flights in Space and Universe.

PRE-REQUISITES

It is expected, the reader of this document is familiar. We have more than 10 years contracting in London City Banking and Finances top 10 Banks and Financial institutions World Global Ranking and Top 10 Blue chip companies World Global Ranking, unfortunately COVID-19 began and the British Economic collapsed, making it very difficult to finance the project. Our effort is to launch new invention on the UK market - Herhofer Net Worth adding value to the UK economy and make possible perform our London City Banking and Finances contracting transformed to Global Galactic Business for Settlers, Passangers and Holidaymakers.

OVERVIEW

HERHOFFER NET WORTH was invented to satisfy the requirements of our Herhofer Space Group and participation in the space industry. During the time, we effectively invented more than 100 patents in space including but not limited with

- How to solve Fitch's Paradox Of Knowability
- Deterministic Search of Infinite Uncountable Multi Dimensional Data Arrays Using Fractal Mathematics and complexity $O(1)$
- Interstellar Data Compression of 8e100 TB of Data to 96 bytes and complexity $O(1)$ to manage - search, insert, delete to secure live audio and video conferencing Mars, Moon, Space, ISS, everywhere in our galactic,
- Herhofer Space University securing BSc, MCs, PhD in Herhofer Space Science and Herhofer Space Education
- Herhofer Space Research Institute, a trade mark of Galactic Services Space
- Registered Learning provider in The UK.

During the process of development of Herhofer Net Worth we researched present crypto technologies banned in the most of the strongest economies in the world like UK and China, extending Herhofer Net Worth currency to be backed by intangible face value of our patents and inventions in space industry assets and initiated last year Herhofer Stargate Celeste Space Economic Zone and Space Jurisdiction completely isolated from any other resources or finances in The UK and world globally, funding unique Space Jurisdiction to develop future of technologies scope:

- Gravity engine
- Plasma propulsion
- One stage to orbit

-
- Orbital Construction Dock
 - Plasma counter terrorism blasters
 - Fractal cryptography and Fractal Data compression
 - Cyber Civilization
 - we also participated to flights Mars and inventing Galactic Services Space Mars program published at herhoferspacegrpup.uk and space.herhofer.com
 - Astria Life Hosting Vehicle a tankless vehicle with plasma combustion engine is aimed a Martian exploration vehicle
 - And many more non-exhaustive list as we steady add new inventions and patents under Herhofer Space Research Institute TradeMark to keep assets value high and Herhofer Net Worth covered by value and denomination outside Stargate Herhofer H1 = £1.

Inventing Stargate Herhofer Space Zone, finally we designated Herhofer Net Worth a legal tender in Herhofer Stargate Celleste Space Economic Zone and Space Jurisdiction, provided we already use Herhofer Net Worth to pay our employees and contractors, for evidence we add our advert in JobServe and Job offer to some of our past employment offers see Appendix for more details, our contractors use Herhofer Financial Network exchange to exchange Herhofer Net Worth to any available currency on the exchange, we want to simplify the way our customers use Herhofer Net Worth by onboarding Herhofer Net Worth in HERHOFER SPACE BANK Banking making it available in conventional banking technologies.

PRESENT ACHIEVEMENTS

After we delivered Pitch Deck to market last year and we recruited first contractor paying in Herhofer Net Worth, November 2022, we continued to improve Herhofer Net Worth Success adding it as legal tender in Stargate Herhofer Space Zone and increasing value of our inventions and assets.

Herhofer Net Worth is a Planetary, Space and Interstellar Currency Referencing Service of Herhofer Space Group implemented in Stargate Herhofer Space Economic Zone to provide individual and distinct IP and inventions protection, after we have big impact over our inventions with Superspeed RTM SDLC stolen by Vesselin Vassilev a CTO of Horizon Software, confirmed by CIA debt obligation in £480,000,000.00, for comparison Agile lifecycle present revenue is beyond \$35 billion. I was audited and authorized in the past by FBI in Bulgaria, presently requested re-authorization, and the agency responded with the law boundaries of any reauthorization, last few days I received BPSS clearance path to potential employment in American Business, unfortunately my BPSS data leaked and Mob Vasil Bojkov call me, on the next step I notified CIA and FBI about the leaked BPSS information and our Planetary, Space and Interstellar Counter Terrorism Director of Herhofer Space Group Emma West a London Met Police Officer Counter Terrorism Police MI5. Now BPSS solves at once all queries about the questions, am I working with MOB and gangsta Bojkovi, Djendovi, Vesselin Vassilev, Mol Bulgaria, etc. I am not working at present with MI* nor the above Bulgarians authorities and individuals in any structures as they serve British royal family distinct of Herhofer Stargate Celleste Space Zone providing conflict of interests, this must be clear of misunderstanding. We aim engage FBI and CIA in protection of our patents, financial assets and Herhofer Net Worth and our close friends government authorities in

case of terrorism and international terrorism events. Provided in the past we send H50 banknotes for review to the FBI, we believe protecting HNW currency from money laundering funds', estimated representative amount at H1Be606 is a tremendous amount requiring galactic global planning of securing of money against financial crime in the spotlight of engaging British Military Intelligence is pure conflict of interests at present stage. All my credited partners and friends are listed in twitter, we don't have any secrets as we are passengers' space, a global galactic business implementing Galactic Services Space, A Space and Interstellar Program, difficult to protect without correct accessible gateways to global partnering authorities of CIA and FBI proven with number of incidents similar to Vesselin Vassilev. When it comes to the law as we are a distinct JURISDICTION outside UK boundaries but still on the island, I have an agreement with Plamen Naidenov, who is high judicial council member in Ministry of Justice in Bulgaria and Pernik District Attorney to discuss, Implement and launch Stargate Herhofer Space Zone, the Space Law and Regulations. Bulgarian Law has a number of advantages for economic zones like Stargate Herhofer and Space vs UK law, we can maintain an extreme high of explorers skill set close to military and combat skills but away from any military, we are unarmed, conditioned attitude "we do mean business", "spirit and wisdom", "if impossible than do it", this is overheated and overclocked military skill set of space explorers taught in Herhofer Space Education and Herhofer Space Science. Deep space explorers prepared to live and work life balance where life have 0(ZERO)% chance to survive, it is not about how to survive, it is ZERO%-NO SURVIVALS in space. We care about friends only in the human habitat in space, everybody is responsible for one's own life 100%, this is an explorer's skill set, it is Bulgarian Law in short. Since that time, we stopped conversations about his debts and stolen IP accounted "case solved" and focused on how to protect

our future patents by inventing a seat at Herhofer Space Group compulsory female position and adding one more director to Herhofer Space Group board of directors - Emma West, she was invited and I know her personally for more than 3 years from Met Counter Terrorism Police. With her help we envision to establish the Met Police Space and Interstellar Counter Terrorism department in response to accidental government mistakes Issuing Air flight license when Vertical Takeoff Space Vehicle license is required closely related to terrorism. 911 was airborne blasted in the twin towers in New York. She also is on the road, presumed to research PhD in Space and Interstellar Counter Terrorism, a program of Herhofer Space University College Atlantis. At present there are two PhD

- 1) Astrid Herhoffer, PhD - Director, Arts and Design migrating to Herhofer Space University College Lorenz Astria Herhofer a Planetary, Space and Outer Worlds Fashion and Perfumeries, Lorenz Herhofer Design Desk Studio
- 2) Lorenz Herhofer - CEO, PhD in Space Mathematics, Founder of Herhofer Space Group, Herhofer Space University and Herhofer Space Science & Herhofer Space Education
- 3) Emma West - Met counter Terrorism Police, described above her research in Space Terrorism in Migrants Streams Globally.
- 4) Vasil Yakov - Director Planetary, Space and Interstellar Quantum Solutions
- 5) Monica Zgurova - Director Planetary, Space and Interstellar Business Tailormade, SPA, Flights, Campuses, Space, Interstellar and Outer worlds Breaks, Lorenz Herhofer - Fashion, Perfumeries and Brand Design House
- 6) Elena Yakova - Director Planetary, Space and Interstellar Financial Logistics

We are in conversation of 3 more PhD after incident not understanding $\Pi \neq \Pi$, planetary identification index, a 3D ratio of old 2D constant ration $\pi = 3.14$

PhD in Herhofer Space University is mandatory for anybody working in or with or within Herhofer Space Group, Herhofer Space Research Institute and Herhofer Space University, our concept we see how difficult it is to understand the space industry from the viewpoint of planet Earth comfortability.

We delivered our Pitch Deck and established working Exchange at:

- <https://manage.herhofer.com>
- <https://trade.herhofer.com>
- Herhofer Financial Networks - an interstellar payments, interstellar financial logistics and interstellar financial deeds platform, developed on blockchain, PoW, PoS, PoC, Fractal Mathematics $O(1)$ complexity, smart contracts network and micro notation code execution as a standards to implement our business at interstellar levels implementing blockchain technologies at Herhofer Stargate SCRAM Networks, more securing desktop, web and mobile first technology a customer first oriented approach where we use security by design.

HOW HERHOFER NET WORTH WORKS

Herhofer Net Worth initially was launched as a crypto platform when COVID-19 began and £1 inflation rounded to £350 and inflation impact caused by Bitcoin release. We, at Herhofer Space Research Institute found Bitcoin is a Paradox instead of financial instrument, require us solve another paradox, since that time, to establish our new way, we solved following Paradoxes:

- Fitch's Paradox
- Bitcoin Paradox
- Cashout corporate patent, a solution of Fitch's Paradox
- EPR Paradox - using single natural bank accounts under all currencies - sort code/bank account

After we solved the above equations, we found Bitcon is a financial fraud and alarmed internet digital media within our blogs and posts, the exact fabrication is as follow, representing financial gambling pyramid in Bulgaria:

- Founder creates a team and collects from each member £5
- Members are educated how to found new team and collect payments from the newbies, adding percentage to the founder
- Each week collection of £5 and additional percentage from member to the founder is granted free
- That is the mapping in Bitcoin and all crypto derivatives represented as chain of responsibility in crypto market

Presume it is fraud in capital markets but not fraud in gambling and betting. So, Bitcoin is a fraud using USD reference which is a world global fiat currency referencing service. The reason we invented Herhofer Net Worth Planetary, Space and Interstellar Currency Referencing Service Herhofer Net Worth for the purposes of Galactic Services Space Global Galactic Business Space Program.

I think the best representation in capital markets should be the expression of China financial authorities:

Then, on Sept. 24, authorities outlawed all cryptocurrency transactions and pledged to completely root out mining. "Crypto transactions and crypto services of all kind are banned in China, In mainland China, crypto exchanges have been outlawed since 2017, while crypto itself was outlawed in 2021, Final Chinese financial authorities is Crypto currencies are very difficult to regulate and banned use of crypto currencies transactions in China.

In compliance with the above and the regulations in the UK, we launched Herhofer Stargate Celleste Space Economic Zone and Space Jurisdiction and implemented Herhofer Net Worth only legal tender in the Stargate Herhofer Space Zone distinct and unique global world space industry agency, maintaining 100% financial and economic separation of concerns with any financial fiat or other instrument on the grounds of economic source, UK law requirements to develop, implement and launch private currency legal tender in the UK FCA Registered and Regulated. All finances are derived from own sources, intangible assets and money in the way it is explained in FCA, BoE, Royal Family notes about private currency requirements to be launched in The UK as legal tender and payment vehicle, Our research and interactions with other countries likewise we anticipate Luxembourg is very good example richest country in Europe, expecting ourselves be ranked richest and most advanced technology global galactic business, EURO Zone launch with EQU then transferred into EUR, major advice of having own legal tender currency is after the invention, we must make use of it, maintain it, support it and popularize to backup representation of real trading value and business implementing Galactic Services Space our Space Program. From our point of view this is representation of the fundamentals of British Governance, Democracy and Unwritten

Constitution allowing business to be in the way we imagine it without any constraints or vehicles to obscure our growth and success. Examples of world high value and high performing economic zones:

- Celleste
- Gibraltar
- Isle Of Man,
- Jersey
- Malta
- Vatican
- San Marino
- Luxembourg
- Monaco
- Andorra
- Lichtenstein
- Hong Kong
- Macao
- Singapore

Celleste is the latest addition Space Only Economic Zone and Jurisdiction of Settlers, Passengers and Holidaymakers flight in space and outer worlds

From the viewpoint of legal tender The UK Great British Pound is a composite currency represented by:

- Celleste Pound (Herhofer Net Worth FCA Registered)
- Scottish Pound
- Northern Ireland Pound
- English Pound

The Great British Pound composite currency defining the above as distinct legal tenders in The UK in the scope of Great British Pound World UK Currency

HERHOFFER NET WORTH FUNDAMENTALS

HNW is designed as referencing currency service in the scope of space, global galactic and interstellar financial deeds, for this purpose we invented different financial instruments:

- Interstellar transport layer securing £0 fees and providing access for FPS and SEPA galactic global payments instant transactions using our interstellar data compression 8e100 TB compressed to 96 bytes.
- Smart contracts network - all our business is smart contracts and blockchain management, no paper
- Micro Notation Code Execution context of Interstellar payments
- Derive project based funding currency, e.g. to specify project cost we implement specific currency equal to H1=£1. For Example, we released Test Smart contract Startup Stage Ignite (SSI) currency backed by the same assets and HNW, when the contract is exhausted, we archive the contract not in use anymore.
- Global Galactic and Interstellar Indices
- Global Galactic and Interstellar investment instruments, looking at Mars planet we envision and identify the planet as a resource planet for mining ore, metals and tourism SPA Holidays on mars providing we invented patents to secure healthy SPA holidays on Mars for our passengers, ensure they will travel to the poisonous Mars transparent of any issues in the same way Brits fly to Spain in the summer for a wee holidays.
- Exchanges, Payments, IPO, Pre-IPO, Shares - HSGS 1 = £350, I mentioned in the beginning when £1 become £350 because of COVID-19 inflation we fixed HSGS = £350, HNW = £350 and that is one of our milestone numbers mostly used

-
- We invented interstellar Lorenz Herhofer financial numbering system by adding numbers like Block, B1 = 100 centillion used 1, 5 10 Blocks, T 1 is investment stream of money backed by invention delivery stream, implementing our Herhofer Net Worth cost T700, meaning 700 different infinite lines of income, Samsara S1 is the value a beggar can buy anything using £1 donation, it is uncountable infinite number represented with ranged value when applied to specific interstellar business plan for example. All Means Samsara is uncountable infinite number in the world of illusions, for the specifics of our Cyber Civilization patent we have separate financial numbering system in octal and hex numbers - this is cyber civilizations, no humans attend just audible and CCTV cameras monitored process, for further reference, please review here - <https://youtu.be/gjliDNUiglw>
 - Planetary, Space and Interstellar Economic fundamental analytics indices
 - Planetary, Space and Interstellar Technical fundamentals analytics
 - Planetary, Space and Interstellar Economic news events and calendar
 - Planetary, Space and Interstellar Trading and Fx Market
 - Herhofer Stargate Space time Zone, which is our Galactic Time Zone GMT +1 and land representation London-Tokyo

Herhofer Space Group Single Share Issued

HERHOFFER NET WORTH FUTURE

We envision develop further Herhofer Net Worth at present backed with our own assets and invested totals more than \$700,000 USD, last reported amount was £175,000 and £35,000 in HMRC most of the credit and charge cards we closed because of COVID-19 unable to provide accounting details as we in the recess of invest only, on the other hand this is my sole own business and number one activity is to release it to market expecting as finally we delivered H1Be606 digitally minted cash that will cover more than any valuables spendings from my own money and assets addressed ahead of this words, including financing worth more than \$150,000 last year by using Founders Card providing discounts, financing and subscriptions vital to any founders business. We use, for example, AWS funding of about \$9.500 valid by 2024. Founders Card is paid membership \$465 annually equal to American Express Membership I had 4 Platinum Cards of AmEx and one Business Gold, Global REGUS offices and Herhofer Space Group HQ in Zurich with offices in London, New Youk and Zurich at present only London office is live, we try secure office at Westfield London, White City unfortunately that increased office rent price post agreement and we rejected the contract. It is vital to our global galactic business at present to onboard Herhofer Net Worth in FCA Register and regulated environment into conventional banking as regulated bank account and sort code will extend our present market share to unlimited. One of major financial inventions we taken onboard is to spend anywhere and everywhere only one single currency Herhofer Net Worth FCA Registered and denominated to local currency

- HNW/EUR = 1EUR
- HNW/USD = \$1
- HNW/GBP = £1
- HNW/CHF = 1 CHF

-
- And so on for all world global currencies in Herhofer Space Bank Debit Card
 - Accounting is in the UK only HMRC approved exchange rates, we avoid all exchanges and rates hassle spending H1 for 1 CHF in Switzerland removing all barriers and obstacles of free travel and spending globally over Herhofer Stargate SCRAM Networks

We envision build our planetary, space and interstellar HNW currency ahead of time to all the rest space agencies SpaceX, Blue Origin, Dream Chaser, Virgin Galactic, and all world countries Space agencies including but not limited with British Space Agency we are distinct Space Zone, our SWOT analysis show we are at least one century ahead of mankind Earth planetary civilization after graduated short subject in Harvard University, MA, USA in 02/2020 when COVID-19 began and we been banned from traveling. We see our major competition, ordered in descending:

- 1) Rockefeller - 49 Nobel prizes competes our inventions in space industry
- 2) Harvard University graduates Bill Gates and Paul Allen competes our Herhofer Space University
- 3) Oxford University world ranking number one, British Royal Family University 1000 years old heritage in British Higher Education competes our Herhofer Space Science
- 4) No second place.

Despite this competition, we are World Number One Planetary, Space and Interstellar UK Registered Education Provider in Herhofer Space Education and Herhofer Space Science, Herhofer Space Research and world only ever who solved Fitch's Paradox Of Knowability - Access to Unknowable and universe knowledge. So, we rank ourselves Number ONE Of All times because of this and all the

above estimations a century ahead of time. We send to Oxford University Mathematics Institute the Business Solution Of Fitch's Paradox Of Knowability

Herhofer Space Group intro video - <https://youtu.be/GxjnSl4uuM8>

Herhofer Space Group donation to impacted of UK economy of £345.6 centillion in delivering Regulated Passengers Space Industry, Herhofer Space Education, Herhofer Space Science and inventions with infinite amount of money,

- Money production patent, modern remake of King Solomon Secret Golden Mines, the secret is processing of golden ore, H1Be606 our Global Galactic Business funding just small breadcrumb chunk of our total money because, we have infinite streams river of golden spring of funding from our own gold spring, we don't envision any crumpling on the road to Mars. If all the above is launched in 3 years, I believe we can land on Mars during the next three years departing from Herhofer Stargate Spaceport, A Passengers Space Port of Galactic Services Space, passengers regulated flight to Mars. We are the richest ever and smartest ever, no exception. I am just ironically envision how poor is the world total money about £25 Quadrillion but still dream chasing to land humans and settlement on Mars, imagining a Space X flight with turned off engines for the duration of the flight. So, from that point of view we are 1000 years ahead with the below inventions:
 - Gravity Filter
 - Nonflammable combustible plasma petrol
 - Plasma engines
 - HTOV for passengers flights equal to airlines flights
 - All times turned on engines
 - Space navigation, mapping and routing

-
- We are richest of all times shifting Genghis Khan to second place with his historical \$135 trillion a thousand years ago, we won first prize with INFINITE UNCOUNTABLE GOLDEN SPING OF MONEY - A FITCH PARADOX SOLUTION OF INTELLECTUAL PROPERTIES BUSINESS

HERHOFER NET WORTH ONBOARDING IN GALACTIC SERVICES SPACE, FCA REGISTERED, SORT CODE AND BANK ACCOUNT

We would like you to read and provide us banking services for legal tender bank accounts in Herhofer Net Worth, a currency of Planetary, Space and Interstellar Currency Referencing Services.

We believe our partnership with Herhofer Space Bank is worth the money and effort expecting onboard our bank accounts with you, FCA Registration.

We are aware we are in the launch stage with presence and impact on the space industry market, we had support of a \$5 billion personal loan for 35 years unable to take it, restricted to the fee of €20,000 is cash as cash of such amounts is irregular.

We can supply any amount of money between zero and infinity, having in mind we solve paradoxes, at present mathematicians create work around and estimate paradoxes as unsolvable tasks, we believe none can achieve what we do now, even in the eternity imposing Solved Fitch's Paradox never had been solved and accounted impossible to use unknowable even for philosophers dividing knowledge to:

- Known
- Knowable
- Unknown
- Unknowable

Imagine, we have an infinite amount of money but all are gone. In the case of effort we account for forging money, any kind of financial assets illegally bound are not worth the time spent to collect a free billions even more. A satisfactory money invention is to make money work for me.

Herhofer Space Bank is private ,personal use bank with regards to FCA regulations to allow me, Lorenz Astrid Herhofer implement and spend my own money representative fortune of H1Be606, please see provided evidence of source and ownership of all money and patents aiming to fund world first global galactic business under Herhofer Space Group in the only world passenger space flight and construction Herhofer Stargate Celleste Space Economic Zone and Space Jurisdiction. We envision onboarding be first step extending presence with cards, online banking, business banking, and financial products.

The payment lifecycle is:

- This is an update about the full payment process using our digital mint currency backed by major inventions
- interstellar data compression of this is illustrative of possible operation to compress 8e300 TB of any type of data to 96 bytes file length - H 7 trillion algorithm only cost aimed to support Mars Earth live audio/video conferencing
- interstellar routing and navigation estimated \$2,7 trillion compared to present google maps, apple map, garmin, bing - this patent estimation is on the flyover in the document blue background - topic
- "MAJOR INVENTIONS" page 26

About Lex Autolease the digitally mint payments is the same I explained to you for the police space counter terrorism department we look to establish. We became in a position where we recruited Director Counter Terrorism to succeed in this very difficult time of Intellectual Property impact. This department is crucial for Herhofer Space Group life. Post-bitcoin we have decentralized finances and decentralized business where a dissolved company isn't the end of the business having smart contract business with digital signature and encryption. Herhofer Space Group was dissolved until we fight

to clear our patent Superspeed RTM SDLC. Now we applied to the company's house to restore our Herhofer Space Group automatically dissolved company.

The regulated payment process is:

- burning address can be on customer side of our side to hold paid digitally minted currencies backed by patent
 - we will insure our business to cover potential losses and cover our customers
 - Cheques will be issued by Advanced Development Technics Ltd, present name Herhofer Stargate Network
 - Herhofer Space Bank is FCA regulated exempt of requirements of registration and authorization serving only business as usual my own money and my own payments supporting core business requirements - accounting, invoicing, cheques, payment, audit, reporting and taxation.
-
- benefactor sends digital amount in Herhofer Net Worth to the beneficent burning contract address mentioned in sequential cheque agreed for the payment
 - benefactor provide cheque to the beneficent in two parts - Herhofer Net Worth cheque amount, Exchange rate and GBP amount with same serial number to exchange Herhofer Net Worth to GBP value.
 - exchange rate is verifiably on trade.herhofer.com home page and [trade.herhofer.com public for automated api](https://trade.herhofer.com/public/automated/api) - trade.herhofer.com/api/v1/market/price/HNW_GBPS Api request request

receiving following response

```
{"success":true,"message":"success","data":{"symbol":"HNW_GBPS",  
"trade_coin":"Herhofer Net Worth","base_coin":"Herhofer Space  
British  
Pound","price":"673.47","price_change_24h":"0.000000000","volume_  
24h":"0.000000000","high_24h":"0.000000000","low_24h":"0.00000  
000"}}
```

That way we have regulated auditable and taxable, accountable in our banking and business software footprint of the transfer

- Digitally minted money
- Herhofer Stargate Network Exchange
- Advanced Development Technics accounting software accounting
- Business Bank account
- Issued Cheque on behalf of Advanced Development Technics, Herhofer Space Bank a FCA regulated personal bank.

It can be regulated

CONCLUSIONS

We are the world's first Global Galactic Business available on the market, A Herhofer Space Group Knowability Space Agency, new trend in space. We believe in the course of time during the next few years we will see the impact of our business, visible even today.

NASA moved away from present rocket engines and took our parallel way of spacecraft development using Nuclear engines where we use Atomic engines. We have our global space business industry global impact point of reference. We impacted the biggest and number one agency in the world to turn back the past rocket engines and air intake flights.

Herhofer Space Science define four types of combustion:

- Molecular - petrol combustion
- Atomic - Plasma combustion and plasma fuel isn't flammable, also not molecular combustion capable, meaning our plasma liquid fuel isn't burning on touch of flame
- Nucleus - it is common sense of present nuclear science and powerplants providing halflife combustion and chain reaction.
- Gravital - it is total dissolve of matter in an glimpse of extreme short instance of time, consequence of our inventions and scientific definitions in Herhofer Space Science - Gravity, Gravity Lifecycle and Gravity Filter - emit oxygen, water and organic matter - breaking barrier and boundaries of matter, please read following video presentations on our YouTube channel:
 - Gravity Filter - https://youtu.be/U_LsLr3jDMk
 - Herhofer Space University - <https://youtu.be/fAfOJtjzo04>
 - Gravity, The Fundamental Force Of Life - <https://youtu.be/E-9zvV9NCOI>

-
- How to solve Fitch's Paradox - <https://youtu.be/VjGnARuwnTw>
 - Planetary Identification in the universe, $n \neq n$ - <https://youtu.be/dnoWkEWOAtA>
 - Interstellar Data Compression, an extreme data compression - <https://youtu.be/CaN8FsZVgWk>
 - Orbital construction Dock, an implementation of Cyber Civilisation, Plasma Engines, Interstellar live conferencing, and more patents and inventions - <https://youtu.be/gjliDNUiglW>
 -

We broke four infinite boundaries of:

- Knowledge - Solved Fitch's Paradox
- Infinity - Deterministic Search Of Infinity $O(1)$ complexity
- Matter - Gravity Filter, emit Oxygen, Water and Organics
- Perception - The Perfectness of A Warrior, Modern warfare martial art and warfare wellbeing - extreme of galactic explorers skill set in three parts:
 - The Art Of Force
 - The Art Of War
 - The Art OF Heaven

Thank you for your time reading the document.

Please, let us know if you need more details, to make the proposal readable, we focused only on impersonated details providing only Herhofer Net Worth roadmap. Upon request we can provide all additional materials related to Herhofer Space university launch, Herhofer Space Research Institute, Our patents, inventions and trademarks, and anything you might need in addition to clarify all details you would require at the end of the roadmap to onboard

Herhofer Net Worth in HERHOFER SPACE BANK banking for the purposes of Galactic Services Space and Herhofer Space Group only.

Lorenz Herhofer, PhD, CEO

Herhofer Space Group

Governor, Founder and Owner of

Herhofer Stargate Celleste Space Economic Zone and
Space Jurisdiction

Corporate Patent Herhofer Space Research Institute Register name.
Patent Owner - Herhofer Space Group, Lorenz Herhofer

Present patents owned on the market
Google Maps \$137 billion 2018/\$4,3 billion
Bing \$143 billion
Garmin \$18 billion
Similar patents
Google Maps, Google Earth, Moon, Mars, Apple Map, Microsoft Map
Garmin, Forwards
The mapping industry is only planetary level and no planetary and interstellar universe navigation.

Claim 1 - Patent is unique on the market without competitors
Claim 2 - Technology to map universe not exists
Claim 3 - Mathematics to route, navigate, herhofer meridian and herhofer equator - not exists
Claim 4 - Universe single time zone not exists
Claim 5 - Universe satelliteless navigation and routing not exists
Claim 6 - Universe GPS satelliteless not exist as mathematics, technology and competition
Patent worth
Patent potential envisioning increased demands in Mars mission, Space X and growing space construction business,
Increased plans to Mars in the next 10-15 years planned by SpaceX increase common universe navigation and routing enabling regular flights to Mars
Current Market Value : - \$2,7 trillion

DATE 20TH JUNE 2022

GUARANTY FINANCIAL OF ABU DHABI BOARD OF DIRECTORS RESOLUTION

Today June 20, 2022, GUARANTY FINANCIAL OF ABU DHABI Board of Directors deliberated and resolved on the following;

- 1). Review Primary Projects/Business plan from local and foreign investors seeking funding from GUARANTY FINANCIAL OF ABU DHABI.
- 2). Agreed to enter into business relationship with GALACTIC SERVICES SPACE based on specific terms, condition and agreements.

The following were present when this deliberation and resolution was made:

1). Hossain Mustapha	Chairman
2). Mohammad El Ghandour	CEO
3). Khaled Elansary	Chief Investment Officer
4). Naseem Saleh	Board Member
5). Muhammad Youssef	Board Member
6). Omar Khalid Ahmed	Board Member

During this meeting, it was unanimously agreed by all the members present, that the GUARANTY FINANCIAL OF ABU DHABI grants the sum of \$5,000,000,000.00 to GALACTIC SERVICES SPACE funding request as presented to us, for the actualization of its project which we consider a viable venture.

Having considered that this project under consideration falls within our scope of funding, the final approval for funding of this project will be determined once we receive the due diligence report.

The GUARANTY FINANCIAL OF ABU DHABI can only collaborate in funding this project through a conventional loan of 2.5% annually throughout the duration of the project further to ratification and other consideration reached by all parties involved.

The Meeting was adjourned till next 7 working days, in which it is expected that the Due Diligence/Re-Evaluation Report would have been forwarded to the Board for final adoption and Fund Disbursement.

Yours Faithfully,

Hossain Mustapha
(Chairman, Board of Directors)
