SOME OF THE PATENTS, MOST OF MY PARENTS NOT SOLVED FROM DAWN OF MATHEMATICS

At the present stage, I am receiving Universal Credit only to launch my self-employment and new business developed for about three years, my income is zero, the Herhofer Net Worth is launched. This is my new business, opposite of that, when I try to use my business bank account like Lloyds Bank and send a check to be cashed, they close my bank account, unable to start my business. The UK economy is also invisible, just like my patents. what anybody believe, become law breach and breach of conduct to destroy my ne business, I found this in Crypto Valley as well when I wanted pay my patent Money Production, it is explained on many places equal to King Solomon Secret Golden Mines, Imagine Golden Mines at the time only river washed gold is mined. His secret is how to process gold ore. I also have a secret, Solved Fitch paradox allows me to launch a project costing £350 imperial centillion.

I want pay my debts and requested Equivo to take debts list, they successfully settled my arrears, I am paying, unloyal banks and financial institutions block my currency in advantage of crypto, We do not overlap, we are two distinct scopes
