SINCE WE IDENTIFIED GBP v COVID-19 GBP IS £1/350

We accomplished Q1 2024 identifying forged credits, not existing
at all from the same lender and money laundering under EQUIVO

us, pay higher price and fix money laundering in time to allow FCA
enough time identify money laundering and take counter measures.
Total forged credit amounts and money laundering are
H1,000,000+.

During Q2 2024, we identified my creditors neglecting:

- Herhofer Net Worth is in use by court, business, to date by HM Courts & Tribunals to pay fees
- By Law I can pay any possible assets to repay debts
- Some of the banks like Metro Bank and Lloyds Bank Personal & Business, they presume they are smarter than me using GBP and ban Herhofer Net Worth as crypto, not responding to my efforts communicate over settle bank account

We HAVE cash to repay instantly, help us identify creditors and landers sabotage my business, we forced counter measure withdraw all payments from any schedule. After a months, cases erupted.
- We finally again withdraw all payments and responded claims for losses to 22 landers and 2 individuals.
 - o Landers cheat again by converting claims to complaints

We posted in our blog at <https://herhofer.com> and Herhofer Space Group New Room <https://news.herhofer.com>, identifiable factors lead to internal debts bankrupted Bitcoin

Our posts describe the situation tracing it since beginning of Ukraine war, where we identified uncontrolled nuclear weapons possessed by Arabic oligarchs, part of 911 terrorism act in New York, identified terrorists are Dubai Sheikh and British Prince Of Wales Charles, now King Charles III over possession of 3.8% USA GDP by Saudi Royals

Since that time, identified and reported events, also posted news in Herhofer Space Group News Room, are:

- British Royal Family and British Throne approach default
- Bitcoin internal debt bankrupt
- Dark Matter in use by government agencies to destroy purposefully any private business
 - o HMRC
 - o Burroughs (LBHF)
 - o Companies House
 - o We Fined Bank Of England impossible to deliver performing financial environment in crisis, the above banks subordinate and members of UK financial market neglect, disobey and disregard court rulings, payments in GBP and debt repayments
- Espionage of Manchester Firearms Shooting Club, to my own firearms certificate and London Shooting Club, now closed

All the above is in Westminster Magistrates' Criminal Court

MATHEMATICAL EQUATIONS

Under Herhofer Stargate Network Exchange we invented:

- Nuclear War Index — tracing USD demand v transactions
 - o Negative result is Nuclear War Strike Escalation Reasonable to account **YES**
 - o Positive result is Nuclear War Strike Escalation Reasonable to account **NO — Long-term Peace**

BITCOIN

Regarding our Market Strategy published in <https://herhofer.com/download> - education tab, define the view of most powerful economics identified crypto as very difficult to regulate to impossible to regulate in China and Banned other countries.

- Bitcoin is launched at \$0 is financial offence
- Bitcoin cash contraband is financial offence
- Bitcoin approached default 2 years ago
- Bitcoin approached default; this time grounded on Nuclear War Index is identified internal debt Bitcoin Bankruptcy
- Bitcoin does not follow any financial regulations, it is virus based, performing over short-term global loans close to terrorism and money laundering:
 - o 24 hours deposit
 - o 1/3/8 hours deposit
 - o Weekend deposit and more
- Bitcoin provide all features for cash and intellectual property contraband, financial offence. Unauthorised cash transaction cross-border of large to government size cash
- Elon Musk cashed out £300,000,000 cash contraband

BTC/UDS \$0 constant

BTC/USD rate grow are deposits, not investment. Investment is another form of deposits

BTC 40 transferred between my wallets in Singapore to New York is to date £1,788,000 cash cross-border unauthorised transaction, that change the USD demand as Bitcoin is USD based crypto currency BTC/USD is main reference.

Fallback to BTCUSD \$0 rate and deposit £1,788,000 cash on top is cash deposit, not BTC rate, as BTC is launched \$0, not

having any economic fundament and relay USD fundament, the internal debt is undetectable.

Protecting our own currency Herhofer Net Worth, round and 'bout global capital markets pitfalls, comparing Bitcoin with our other currencies, indices, and KPI we navigate apart Bank Of England fundamental. Meaning, we are independent

Herhofer Stargate Celleste Space Economic Zone and Space Jurisdiction

The introduction SCRAM HNW/GBP is 0.000025, enforce global issue, BTC/USD is constant Zero match issuing price of BTC.

At that point, fiat currencies are in arrears of defaults unable to restore and propagate the features of capital market currency, instead provide a global hide — black hole we identified and closed to prevent leak of Herhofer Net Wroth in the black hole.

Closing black hole found by NASA, USA was ignited in prevention of another 911 firearms conflict I mentioned at the beginning.

We do not shoot by default, we close gaps and black holes, firearms in operation this area.

WE CONSIDER OUR PARTNERS AND FRIENDS FOR BETTER
FUTURE HELPING US AND CRYPTO WITHOUT ANY
HESITATION, BREAK THE LAW AND INTENTION TO IRRADICATE
ANOTHER PRIVATE CURRENCY
